FORFEITED EQUIPMENT IN YOUR DATA CENTER

Maximize Value and Ensure Compliance
with OceanTech's Specialized ITAD Services

OCEANTECH

Handling abandoned equipment can be a challenging task, especially when companies go out of business or fail to pay their bills. This equipment, often containing sensitive data, can become a liability if not managed properly.

At OceanTech, we offer a tailored solution designed specifically for financial and legal professionals who face this predicament.
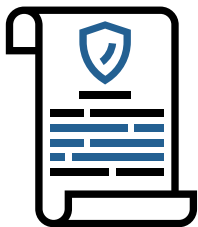

Partner with OceanTech

OceanTech can assist in turning abandoned equipment into valuable assets while maintaining compliance and data security.
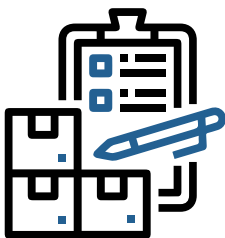

Financial Recovery

When equipment is forfeited to your data center, it doesn't have to be a sunk cost. OceanTech provides a unique opportunity to recoup some of the lost funds by purchasing this equipment. Our valuation services ensure you get the best possible return on your assets.

Comprehensive Compliance

Compliance is crucial when dealing with abandoned IT assets. At OceanTech, we guarantee that all data on the equipment is securely destroyed. We provide detailed documentation, including Certificates of Data Destruction (CoD), ensuring you meet all legal and industry standards and mitigating any risk of data breaches.

Custom Solutions for Unique Situations

We understand that each colocation site has its own set of challenges and requirements. Our services are customized to meet the specific needs of financial professionals managing abandoned equipment. We offer a seamless process that includes inventory assessment, secure data destruction, and equipment removal, all tailored to your unique circumstances.

Nationwide Reach

Whether your data center is in New York or Los Angeles, we provide nationwide service capability, ensuring you receive our top-tier services no matter where you are located.

OUR PROCESS

1. Decommissioning Services

If your data center lacks the team to decommission the environment, OceanTech can step in. We provide comprehensive decommissioning services to efficiently and safely dismantle your IT assets.

2. Secure Data Destruction

Data security is our top priority. We ensure all data is completely wiped from all devices.

3. Assessment and Valuation

Our experts conduct a thorough assessment of the equipment to determine its value. We provide a detailed report, outlining the potential return on investment.

4. Equipment Removal

We handle the logistics of removing the equipment from your facility. Our team ensures minimal disruption to your operations.
